NOTE:

1. If the equipment requires any repairs apart from the calibration, a separate Quotation will be sent after receipt and inspection of equipment at our works.
2. It is always advised to send the equipment to OEM (Original Equipment Manufacturer) so that any issues relating to repairs, adjustments and calibration including preventive maintenance checks are done properly.
3. Now to facilitate you, we have launched "servicing and Calibration window" in the website. To know the status of your job, there is no need to call us. You can go to our website & click on "Services" Button & again on "Service/calibration status button", to know the current status of the your job. We are sure that, this will help in knowing instantly on the job status which we will be updating every alternative date.

TERMS & CONDITIONS :

- 1) On receiving of our quotation for calibration you are requested to send Work order /P.O and the equipment to our works, on door delivery basis.
- 2) Please note that when you send the equipment to our works it should be sent by any one of modes only i.e GATI, XPS, Register Parcel Post or Courier or can be delivered & collected by your persons from our works, personally. We will not receive any parcel sent by Rail / Road.
- 3) If the equipment is of Nucleonix make but obsolete model then, we may have to receive it here, and confirmation regarding the possibility of calibration after we inspect it here.
- 4) If the equipment is not in working condition and needs repairs then same thing will be Informed, along with service charge estimate including spares & calibration charges.
- 5) Only on receiving **approval/work order** we shall take it up and complete the job & against your approval a "Proforma Bill" will be sent.
- 6) Once the unit is calibrated and kept ready, it will be informed to you. It may take 8-10 working days to complete the job (If it is sent only for calibration)

7) **Payment terms** : Unit will be dispatched by XPS cargo on door delivery basis on receiving 100% payment in advance through RTGS or by D.D. Once the unit is calibrated and kept ready, it will be informed to you.

8) Delivery period: 10 days from the date of receipt of equipment (if equipment sent to our works by courier/post)

9) Delivery period: 2 days from the date of receipt of equipment (if equipment carried out by your personnel)

NOTE:

1) Equipment received will be calibrated at our Radiation Standards and Calibration Lab facility using imported Gamma Survey instruments calibrator which has a standard Source with traceability to **National Institute of Standard & Testing (NIST)** USA.

2) Transit Insurance, if required by you is to be covered by you only. Risk coverage is not our responsibility, **both ways** .

Thanking you,

With best wishes,
For NUCLEONIX SYSTEMS Pvt. Ltd
